ProBoom® Ultima™ Low Profile Mic Booms

The NEW Ultima™ LP Mic Boom brings the quality & reliability that all O.C. White® Mic Booms are known for, but in an exciting new modular integration series.

New low profile, table top-hugging design, allows for the talent to perform without facial obstruction from traditional microphone and arms. Let your talent be the focus!

Less than 5" tall when completely horizontal

ULP-MB
Ultima™ Low Profile Mic Boom
With Machined Table Bushing

Holds Even the Heaviest Mics Up to 6lbs!

ULP-12R
Ultima™ Low Profile Mic Boom
With 12" Machined Riser

- Supports 0-6 lb. (2.7kg) with ease
- 5/8"-27 mic stud swivels 180˚ in all directions
- Excellent for both tv-recorded broadcast and traditional
- Includes 12" fixed horizontal arm for increased reach
- Additional 12" fixed horizontal arms available
- Quiet, precision holding power at its finest
- Internal wire management provides for a clean install

Are you integrating live TV recording into your studio? Your talent should be the focal point... not your boom.

Do you seat guests 'in the round'?
Choose our Ultima™ 3-Arm Round Table Special!

ULP-3RT
Ultima™ 3-Arm
Round Table Special

The specialized counterbalance design allows for very quick adjustments to the holding force, so you can make the microphone move with only a finger's touch. No drift, no wander, no problem. Precision holding power at its finest!

Specialized Locking Joint Features
## Dual-Axis 180° Control

Integrated wire management channeling in both adjustable and fixed armature

ULP-12MA
Ultima™ Low Profile Mic Boom
With 12" Modular Clamp/Bolt Through Riser

Over 10" of vertical adjustment!

ProBoom® Ultima™
SMS Scalable Monitor System

SMS-6
Ultima™ Six Monitor SMS Package

With unprecedented flexibility and configurability, our Ultima™ SMS monitor system is a perfect companion to our Ultima™ LP series for studio integration. It can support up to six- 20lb. (9kg) flat panel monitors simultaneously, as well as offer a common mounting platform for our Ultima™ LP Mic Boom. This 'all in one' design helps streamline the installation, and offers a cleaner studio layout.

We offer the Ultima™ SMS as both complete packages, and as parts à la carte. All of our standard packages start with our 12″ (30.5cm) Vertical Riser (with modular table clamp/bolt through design). This allows for edge clamping, through-hole mounting, or solid bolting through any work surface with ease. All tools are included standard for mounting option adjustment.

The Ultima™ SMS product line features the same styling motifs as our Ultima™ LP Mic Boom line, which makes for a perfect pairing for whole studio installation. This integrated approach creates a more cohesive and aesthetically pleasing in-studio experience.

ProBoom® Elite
The Industry Standard

We developed our first ProBoom® almost 50 years ago specifically for Radio Corporation of America (RCA). Who knew then we would be setting the standard by which all others are measured? Timeless design and performance never goes out of style.

Now in 2015, our ProBoom® is more popular than ever! We have merged the best aspects of our standard Deluxe line, with our newest features found in the Elite series to bring you the best of both worlds!
