

EPA Workstation Schematic for WKS1 Kit

Mat requires at least 1 x 10mm male press-stud to enable connection of the CPG107-2JE.

Options:

- ✱ If connection to a chassis or other common ground point is required as opposed to a GPO, a CPG107-2JJ offers a 4mm jack plug termination; this enables a “Croc Clip”, e.g. BG, to be fitted.
- ✱ Other wrist straps & coil cords are available, e.g. metal band, longer cord, etc.
- ✱ Bench mat is also available in custom sizes.

Cleaning 2LBM Bench Matting Materials

Regular cleaning with a static safe/antistatic approved solution e.g. ICSC Workstation Cleaner, is strongly recommended.

Surface cleaners available from us:

Part Number	
ICSC-32-ESD	Workstation & Mat Cleaner: 32oz (0.946 lt.), comes with spray pump
ICSC-GAL	Workstation & Mat Cleaner: U.S. Gal (3.785lt), use to refill ICSC-32-ESD

Please contact the office should you have any questions or wish to discuss your particular application.
